Please send me further information about loaning funds to the 'GOLD BULLION RECOVERY PROJECT' as it becomes available.

I understand, based on the results of the personal inspection of the physical operations by Joey (a pseudonym used to help protect the project), and based on the exhaustive onsite DD that has been successfully carried out, the assembled loan funds will be transferred to the corporation performing the recovery.

I also understand that there is a risk with any high yielding venture and that in this instance the Due Diligence has been exhaustive and that there are extensive personal records of the principle(s) of the recovery project held by Suzanna

Dreyer (on line project assistant to Joey) and the finance project co-ordinator - Joey. This information will be made available to all concerned should there ever be a need.

I also agree to not hold Suzanna Dreyer, Berry Ball, nor any of their associates, including Joey, responsible for any losses incurred through no fault of their own within the context of this Gold Bullion Recovery Project. I also understand that every effort has and will be made to secure loan funds at all times and that extensive Due Diligence has been carried out and will continue to be carried out in a professional manner and to a very high level.

Signed electronically, agreeing that a signature typed into an email in this context is legally binding:
